MONGOLIA: *Land Of The Deer Stone*

PHOTOGRAPHS by *ELAINE LING*

"With her photographs, Elaine Ling has taken us around the world to some of the most exquisite examples of those marks left behind many years ago. Using light to capture stone, Ling reminds us

that we are all rooted inexorably to this third rock from the sun. This is at once an ancient and timeliness preoccupation that touches all civilizations."

Ed Burtynsky, photographer

❖ "Elaine Ling's photographs of Mongolia complete a full circle in her life. Her ancestry, her work as a doctor caring for native peoples, her background in music and her mastery of photography converge to yield this beautiful volume. She makes great photographs in one of the world's most remote places: this is photographic fieldwork in its finest form."

MARK KLETT, photographer
